

**SR200**

# SR200

## Overview

# Ride Beyond Limits Dominate Every Terrain

This model is a notable and stylish option among 175CC sport scooters. Its industrial design incorporates bionic aesthetics, achieving a balance between simplicity and dynamism to meet travel needs across urban streets and rural roads alike.

# SQ2000

## Exceptional Power Platform

Equipped with a 175cc single-cylinder, water-cooling, four-valve engine, which embodies years of technological advancement from China, this scooter features silent start, automatic start-stop, and optional electric power assistance.

Silent start

Idling stop

Electric power assistance

# DESIGN Appearance

# Modern fashion inspired Standout presence

## **A. LED headlight**

Featuring a unique dual DRL strip design integrated with a central main beam for improved road illumination and a bolder visual effect

## **B. Sporty geometric front design**

A dynamic geometric design that perfectly blends modern fashion with minimalist aesthetics

# Sturdy Transparent Large windscreen

(optional)

Effectively reduces wind fatigue and enhances riding comfort and efficiency

# EQUIPMENTS

## Features

# Electric power assistance Swift acceleration

- With a sufficiently charged battery, the model accelerates with up to 8 seconds of electric power assistance
- To enable/disable the assistance, press the **start/stop** button three consecutive times

## Technical Advantages

- 1、 Electric-assisted power output: During acceleration, the motor can provide additional torque support to the engine, enhancing power performance.
- 2、 Fuel economy: Assist in engine start to reduce fuel consumption.
