## Urban Explorer

The All-Purpose Maxi Scooter - Enjoy Every Journey with Stylish Design and Smart Technology

# Eye-Catching Style Leading the Trend

A

B

C

- A.** Flowing lines with dynamic tension seamlessly incorporate modern fashion elements, creating a distinctive mobile presence on city streets.
- B.** Full LED lighting system with a unique dual-strip daytime running light and central headlight configuration on the front.
- C.** Raised windscreen design reduces direct airflow to the rider's face during travel, enhancing riding comfort.

# Comfortable Riding, Enjoyable Experience

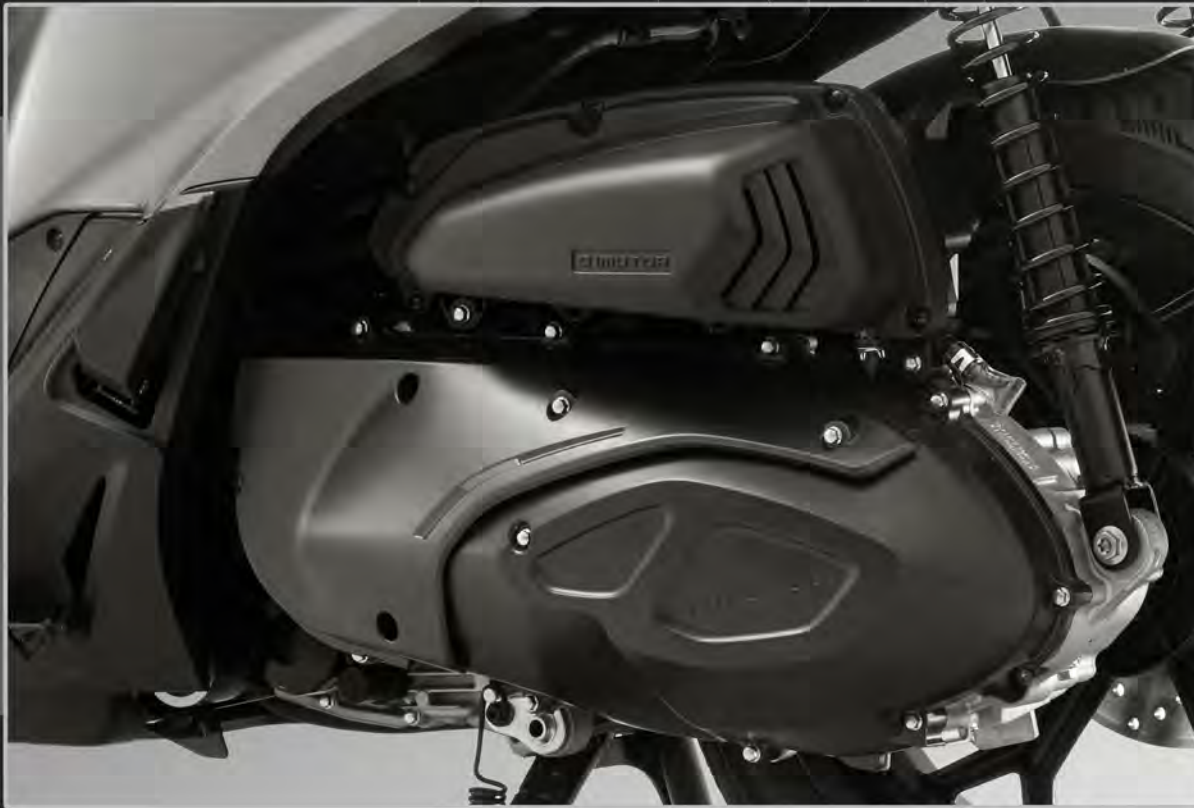

Features a stepped seat design with high-resilience comfort foam padding inside, providing excellent support for both rider and passenger. The low center of gravity chassis structure combined with optimal ground clearance ensures superior maneuverability and urban commuting convenience, making every ride an enjoyable experience.

# Powerful Core

Powered by a high-performance 330cc engine delivering maximum power of 21.5 kW/7,500 rpm and maximum torque of 31.5 N·m/5,250 rpm.

With rapid acceleration response and smooth, linear power delivery, it provides an exhilarating and effortless riding experience whether handling frequent stop-and-go urban commuting or sustained cruising on light touring trips.

Maximum power

**21.5kW/7500rpm**

Maximum torque

**31.5N·m/5250rpm**

# CVT Automatic Transmission

Employs a CVT automatic transmission system with simple, straightforward operation requiring no gear shifting.

Power delivery is linear and smooth, perfectly adapting to various terrains including urban areas, countryside, and streets, providing riders with an exceptionally effortless and comfortable riding experience - ideal for daily transportation and leisure travel.

# Safety First

## Dual-Channel ABS + TCS

Equipped with a dual-channel ABS system that effectively prevents wheel lock-up during emergency braking, significantly enhancing riding safety.

Also features a TCS traction control system that monitors wheel slip in real-time, actively adjusting power delivery on rainy, snowy, or low-traction surfaces to provide an additional layer of stable protection for your ride.

SR250

# Practical Features

## A. Versatile Storage Space:

Boasts spacious, flat floorboard space allowing legs to stretch freely, reducing fatigue on long rides.

Front storage compartment equipped with hooks for conveniently hanging personal items.

Under-seat storage space is particularly impressive - the large-wheel version easily accommodates one full-face helmet, while the small-wheel version can hold one full-face helmet plus one half helmet, providing ample storage for daily travel essentials.

## B. Optional 33L SHAD Top Case:

Further expands storage capacity to meet additional carrying needs for trips and adventures.

## C. Side Storage Compartments:

Thoughtfully designed to provide additional storage convenience and private space.

# Convenient Details Human-Centered Design

A close-up photograph of a motorcycle's front wheel and fork. The wheel features a multi-spoke aluminum alloy rim and a CST tire. A disc brake is visible behind the spokes. The fork is made of aluminum alloy and has a small orange reflector. The background is a plain, light-colored surface.

Lightweight yet sturdy aluminum alloy rims paired with 16-inch CST tires deliver excellent maneuverability for flexible, worry-free urban commuting.

Large wheel hubs combined with high ground clearance easily handle complex road conditions with superior capability.

Equipped with side stand shutdown protection function for safety assurance, with thoughtful details providing peace of mind.

# Full-Color Vertical TFT Display

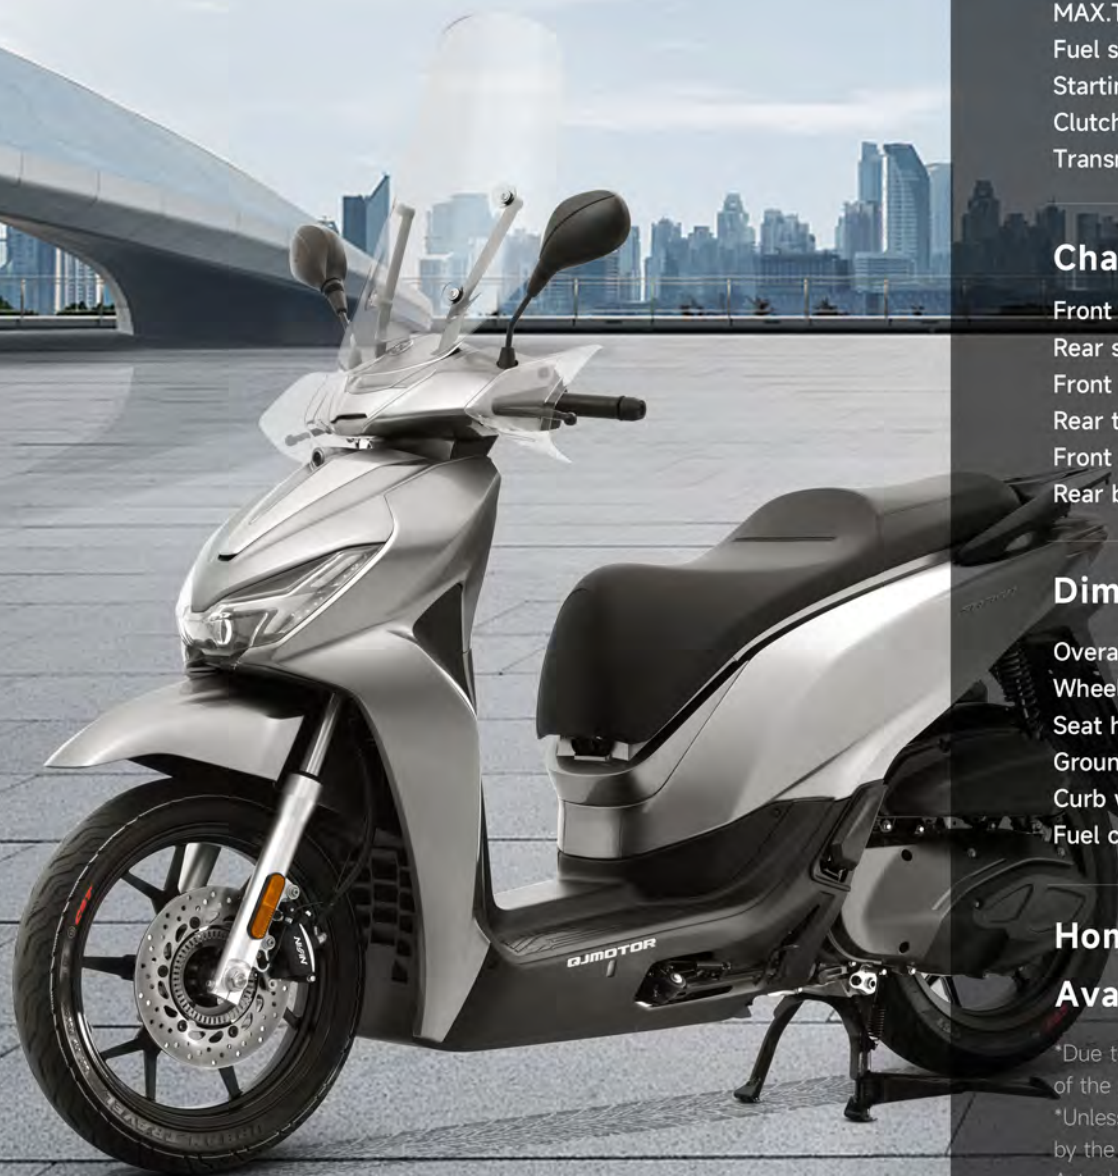

Features an advanced full-color TFT display supporting smartphone screen mirroring functionality, seamlessly projecting navigation, music, and other information right before your eyes. Integrated tire pressure monitoring function displays all riding information clearly and legibly, letting you focus on enjoying the ride while technology makes every journey more convenient and reassuring.

18 W USB + Type-C Charging Port: Supports dual-port fast charging to keep your smartphone and other devices powered up anytime, maintaining connectivity throughout your journey.

## Parameters

### Engine

Type	1-Cylinder, 4V SOHC, Liquid-Cooled
Bore*Stroke	77X70.8mm
Displacement	330cc
Max.Horsepower	21.5kW/7500rpm
MAX.Torque	31.5N·m/5250rpm
Fuel system	EFI
Starting system	Electric
Clutch	Automatic CVT
Transmission	Belt

### Chassis

Front suspension	Telescopic forks
Rear suspension	Telescopic coil spring oil damped
Front tyre	110/70-16 120/70-15
Rear tyre	130/70-16 140/70-14
Front brake	Disc ø256mm (ABS)
Rear brake	Disc ø240mm (ABS)

### Dimensions

Overall L*W*H	2200*750*1645mm
Wheel base	1495mm
Seat height	750mm
Ground clearance	135mm
Curb weight	172kg
Fuel capacity	10L

### Homologation: E5+
