Highlights

Unique Core, Explosive Drive

Equipped with a unique 554cc parallel-twin engine featuring a 270° crankshaft, this model delivers a maximum power of 41.2kW/8,250rpm (56.1ps) and peak torque of 54.0N·m/5,500rpm. Linear power delivery with strong low-end torque enables acceleration as fierce as a cheetah's strike. With agile, precise handling like a serpent in motion, it makes every ride a thrill.

Master the Streets with Lightweight Agility

Featuring a high-strength, lightweight frame with an optimized structure and high-performance lightweight tires, this bike achieves an ultra-light curb weight of just 190 kg. The signature seagull-shaped dual swingarm reduces weight while maintaining strength, delivering sharp, responsive cornering. Sporty aluminum alloy wheels lower unsprung mass, ensuring quick acceleration, precise braking, and agile handling for lag-free power delivery.

Optimal Rider Triangle for Maximum Comfort

This model features a split seat with a tapered front section that contours the rider's body, forming an optimal rider triangle for a comfortable and relaxed riding experience.

Safety Meets Fun on Every Ride

Dual-Channel ABS + TCS

Equipped with switchable dual-channel ABS and TCS, effectively preventing wheel slip and lock-up to enhance overall safety.

Dual-disc Brembo front brakes with four-piston calipers (optional) provide powerful braking confidence, making every ride more secure.

A. Marzocchi Suspension

Absorbs every bump for smooth and comfortable rides
